## 2013 YEAR IN REVIEW

Opportunities to grow the ministries of Predisan are everywhere I turn!

God is opening new opportunities for Predisan to proclaim the kingdom of God and to heal the sick.

In the Culmi region of Olancho, we are expanding preventative and primary care efforts through 17 additional clinics and a birthing center! Because of the reputation Predisan has established over the years as an organization that addresses healthcare with a holistic approach, the Honduran Ministry of Health has asked us to partner with them to provide healthcare to this region of 35,000 people.

We are also expanding our services to individuals who struggle with substance abuse and addictions to include access to outpatient therapy as we open our very first outpatient clinic for counseling service in Tegucigalpa.

God calls us to participate in His plan for reconciliation and redemption! I am grateful that our staff, donors, volunteers and community leaders continue to respond to God's call to be Christ's hands and feet. I am grateful to all of you who continue to proclaim the love and compassion of our Savior as you partner with us to bring physical, spiritual, social, economic and environmental health to the people of Catacamas, the mountain villages of Cuyamel, and now to the people of Culmi, Honduras.

I hope you will be inspired as you reflect on what God has done through Predisan in 2013 and emboldened to dream with us as we accept the challenge that God has given us to serve Him in Culmi.

Linda Trevathan, Board President and CDO

### OUR VISION

As a Christian organization our vision is to see people experience wholeness: physical, spiritual, social, economic and environmental health, according to God's redemptive plan.

### WHAT MAKES US DIFFERENT

We empower and equip people – helping them to reach their God given potential – so that they too can proclaim Jesus and heal lives in their country.

*... and he sent them out to proclaim the kingdom of God and to heal the sick. - Luke 9:2*

## TRANSPARENCY

Predisan is committed to abiding by biblical principles of good stewardship. We are audited annually by an outside accounting firm to ensure we comply with applicable federal and state laws and regulations. We post our financial records on Guidestar ([www.guidestar.org](http://www.guidestar.org)) and submit ourselves to the authority and oversight of the ECFA (Evangelical Council for Financial Accountability).

**BECOME A MINISTRY PARTNER TODAY! [www.predisan.org/donate](http://www.predisan.org/donate)**

“THE LORD HAS BLESSED THE WORK OF OUR HANDS IN CATACAMAS. NOW - WE HAVE THE OPPORTUNITY TO SEE GOD WORK THROUGH US IN CULMI.”

The Culmi region, another municipality of 30,000, where we are beginning to serve this year, is experiencing many of the preventable diseases that Catacamas experienced 26 years ago. The people in Culmi suffer a very high rate of infant mortality.

To lose your child in the first weeks of life is so tragic. To lose your child when it could have been prevented with basic care is even more tragic.

We all have hopes and dreams for our children . . . that they would be healthy, have a future filled with hope, and that they would know the love and compassion of their

Savior. Predisan employees and volunteers have seen the communities in Catacamas transformed over the years. We desire to bring the same healing transformation to the people of Culmi.

**We invite you to join us in the Lord's work. Become a ministry partner today!** Help Predisan to be Christ's hands and feet in delivering healthcare, education, and other services that transform lives and empower people to pursue complete wellness. You can do this by donating monthly. Go to our website [www.predisan.org/donate](http://www.predisan.org/donate) and set up your monthly donations. Together we can bring hope and healing to Catacamas and Culmi.

INFANT DEATHS

**90**  
PERCENT OF WOMEN GIVING BIRTH IN HOSPITALS OR BIRTHING CENTERS

**26,000**  
patients receiving free services

**151**  
students receiving scholarships

## PREDISAN'S WORK

Predisan's work—to provide holistic health and community service to Catacamas and surrounding areas in Olancho, Honduras—continues to be blessed. More people are being helped and treated than ever before—a 107 percent growth in the past seven years.

Predisan's medical staff, volunteers and health promoters operate the Healthy Communities program out of six primary health centers, one urban and five rural. In addition, The Good Samaritan Medical Center provides specialty care doctors, nurses and therapists. Those struggling with addiction seek inpatient and outpatient help at The Center for Rehabilitation of Addictions (CEREPA).

The Spiritual Development staff integrates their services throughout all our programs, offering individual and group bible study activities for patients, staff, visitors and community members, which transform lives.

[www.predisan.org](http://www.predisan.org)

**OUR VISION IS TO SEE PEOPLE EXPERIENCE WHOLENESS, PHYSICAL, SPIRITUAL, SOCIAL, ECONOMIC AND ENVIRONMENTAL HEALTH, ACCORDING TO GOD'S REDEMPITIVE PLAN.**

## HEALTHCARE: HEALING BODY, MIND AND SPIRIT

### THE GOOD SAMARITAN MEDICAL CENTER

Every week we hear stories of patients whose lives were saved because of the care they have received at the Good Samaritan Medical Center. At the GSMC we strive to provide quality comprehensive healthcare services for adults and children with specialty care in Pediatrics, Ophthalmology, Physical Therapy, Gynecology, Dentistry, Reproductive Health, Gastroenterology, Orthopedics, minor procedures (nebulizers) and selective out-patient surgical procedures.

### HEALTHY COMMUNITIES

Predisan serves more than 53 remote mountain villages from our mountain clinics.

"I will never forget a teenage girl who said that because of our presence in her village, knowing we had traveled thousands of miles away from our homes and families, she knew that God must exist and that He sent us to help them. My eyes swelled with tears upon hearing what a big impact we had made in doing so little for them."

Jessica Wallace,  
Assistant Professor of Pharmacy Practice, Lipscomb

## CEREP'S YOUTH PREVENTION PROGRAM MOTIVATED 189 TEACHERS TO PARTNER IN THE FIGHT AGAINST DRUG USE.

### CEREP: THE CENTER FOR THE REHABILITATION OF PEOPLE WITH ADDICTIONS

Like too many young people, influenced by his peers, Oliver started using drugs when he was 12 years old. Many times he has tried to stop only to return to them. Last year, as a young adult, he found himself intoxicated, out of work, out of money and malnourished. He reached out to his father for help. His father had heard of CEREP and sought help for Oliver there.

CEREP offered Oliver hope. At first Oliver struggled to participate in the programs and therapy that was provided. Oliver says, "I learned so much at CEREP. It has been very hard . . . I now have strong Faith that with God's help, everything is possible." Now that Oliver is sober and has hope, he is planning for his future.
