

A HEARTFELT THANK YOU TO OUR MANY DEDICATED VOLUNTEERS!
We couldn't do it without you.

Volunteer Spotlight: Faythe Silveira

"Every trip I've made as a volunteer with Predisan is better than the one before. You've heard of the dream vacation. This is the dream mission. All those who have gone before us have laid the groundwork and set an example of recognizing need and acting on it. From Doris Clark, to Dr. Amanda Madrid, to the dedicated board members, builders, doctors, nurses, interpreters, pastors, teachers, counselors, health care promoters, and support team. Every Predisan employee, that I have met, mostly Honduran, are of the highest integrity, and very committed to those they serve. I'm grateful for the relationships that have deepened with..."

Volunteer Team Spotlights

Kapperman White McGarvey Surgical Brigade

Feb. 19

“Today was an amazing day, but today definitely pulled at our heart strings. We were blessed to meet an amazing little girl that was born with only one developed eye and it had multiple defects which did not provide a probable outcome for development of vision in that eye. The mother had to receive all that news today and the feeling of not being able to help her right then was heartbreaking; however, hopefully with a referral to the closest city we can get that precious baby girl some treatment... The best part was when we placed the cross on that precious baby girl’s neck, she looked up and smiled so big, giving us

reassurance that it was okay and that regardless of the storm, God is our anchor and cornerstone! She will definitely be in our prayers along with the other amazing patients seen today.” - KWM tech, Lauren

Thank you, team Bailey & Branum!

For 18 years, Dr. Mark and Donna Bailey have served Honduras. Dr. Gene Branum has been traveling to Honduras to perform surgeries for 20 years. They have selflessly supported a region in the greatest of need, where 9/10 people do not have access to surgeries. In the past ten years, the doctors have teamed up to collectively save so many lives!

At the beginning of February, their surgical team was able to perform 60 surgeries. Go team!

Your contribution helps our volunteer missions by providing medical supplies, food and necessities to patients in need.

[HELP NOW](#)

There's still time to help our scholarship recipients!

The school year has begun and students are still in need of your help! Please show your support and help us

have the funding in place to send deserving students to school. We are grateful for you and your heart for the children of Honduras.

The amount per student for 2019 is \$384 (\$32 monthly), which will provide the education, well-checks, uniforms, and family stipends they need to attend school. Your partnership at this level will shape these young lives and allow them to develop to their fullest potential.

February 2019- Celia Lett spent time with scholarship recipients and their families.

Celia, Predisan volunteer for 7 years, kickstarted the scholarship program because she saw a need to help children with no access to education and basic resources. The program has since touched more than 2,000 families.
